PRAGMA 32, April 13, 2017

Bioscience Activities

- Genomics Analysis Pipeline
 - Creating resources to enable genomics analysis
- PRAGMA Data Identity Service
 - Rice genomics analysis
- Rethinking bioscience activities
 - Immersive molecular visualization (CENTRA)
 - SDS project with Univ. Queensland (MURPA)
 - GPFS cluster, but no clear use case
 - New driving applications?
- “Computational Identification of Evolutionary Forces of SNPs in Group A Streptococcus” Jessie Bao, Univ. Notre Dame
