

DIRECTORY OF JURISPRUDENCE

an information retrieval system (IRS) to organize and retrieve Supreme Court of Indonesia's jurisprudence documents for Daniel S. Lev Law Library.

BACKGROUND & PURPOSE

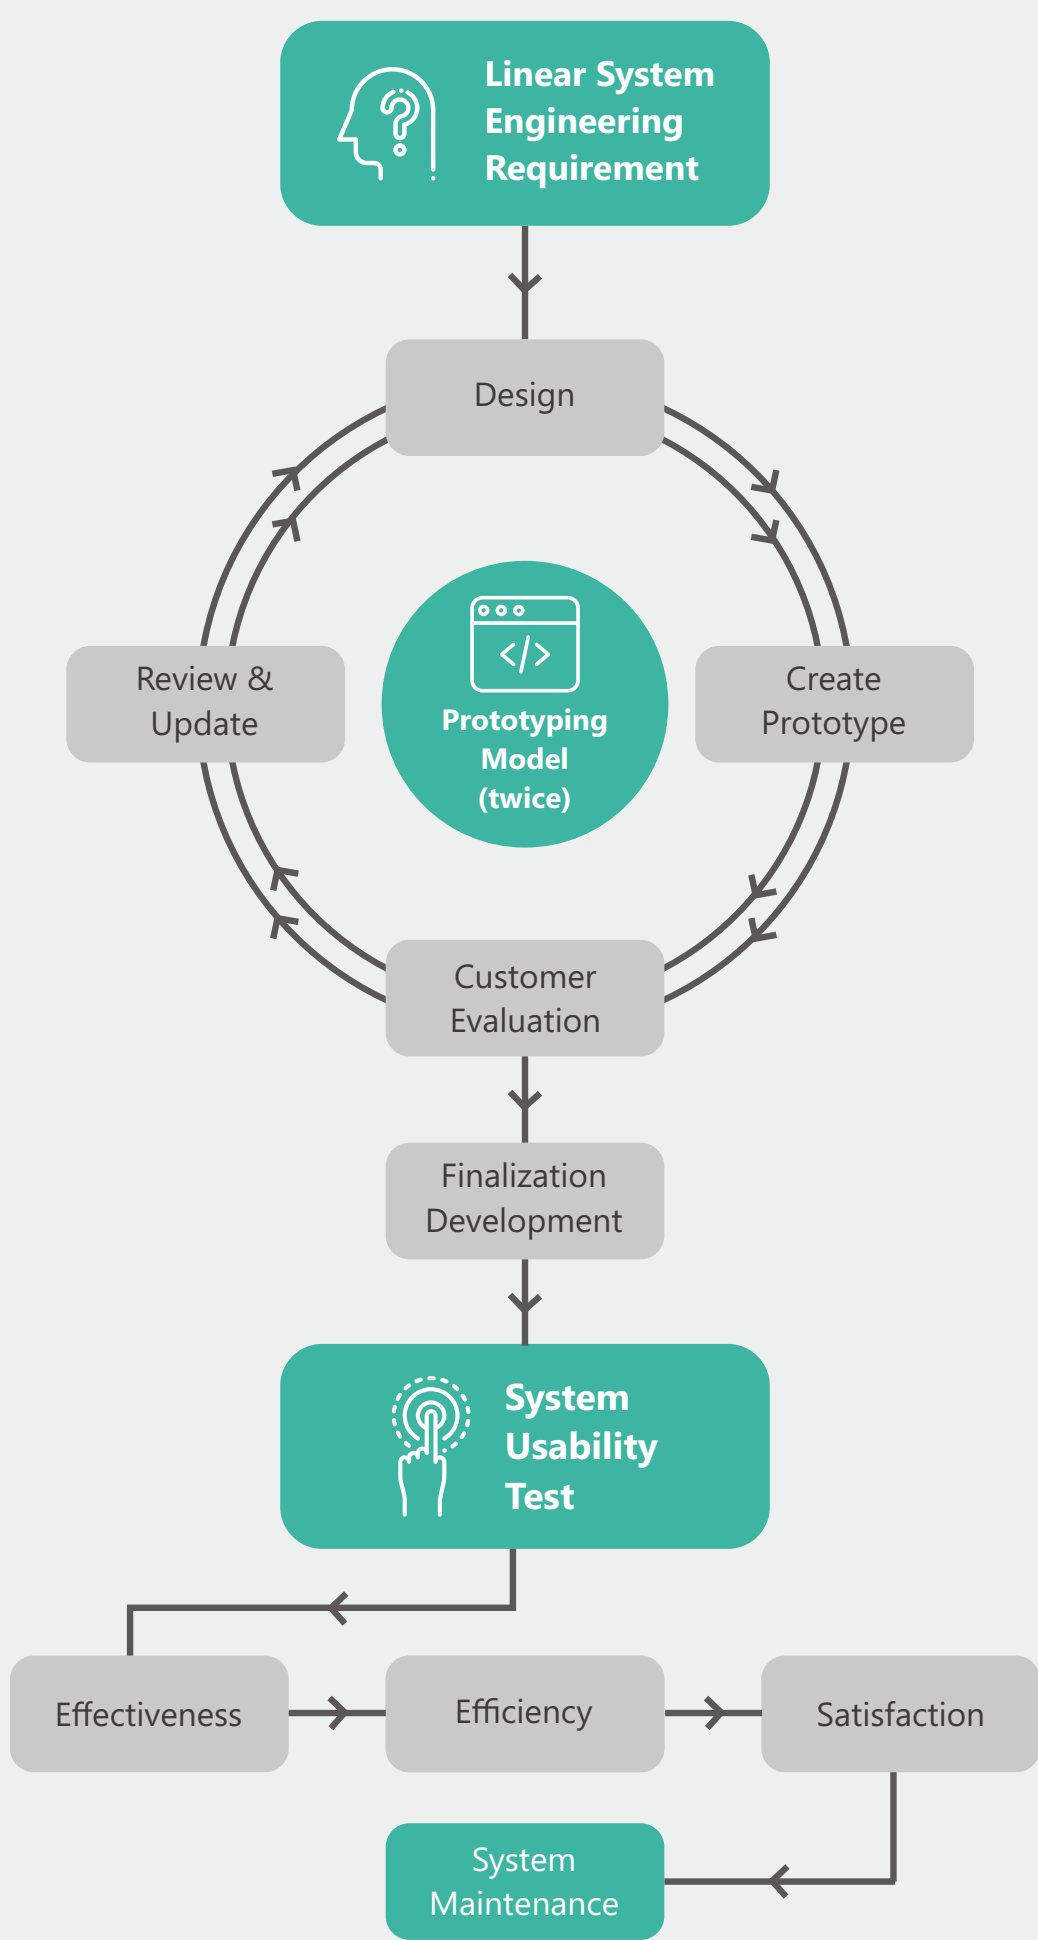

Most of available IRS for Jurisprudence does not meet user needs. With limited resources of funds or capable human resource to develop a IRS in the library, **would it be possible to develop a better and powerful IRS system for Jurisprudence documents?**

WHAT'S JURISP-RUDENCE?

Jurisprudence is judge's decision on a case that has not been regulated in the law, but it can become a useful reference for other judges who investigating similar cases. It also used as study material for law student or researcher

DEVELOPMENT METHOD

SYSTEM FEATURES

The research produce an IRS based on Drupal Content Management System (CMS) that satisfied and pass the acceptance potential users with unique features such as:
