Publications

Why?

- PRAGMA activities and results are of broad interest
- Multiple Goals and Benefits
 - Document for broader community, engage new collaborators
 - Opportunities for students
 - Opportunities for some participants to attract travel funds
 - Documentation to funding agencies

Publications - DRAFT

What?

- Proposed Initial Steps
 - Call for Papers (in advance of PRAGMA 28)
 - Test PRAGMA's ability to do call and review
- Two approaches
 - Select some to develop into special publication
 - Identify ways to capture work in progress (taking advantage of new ways to publish)

Question to PRAGMA Community

PRAGMA's progress is by “doing”

Can PRAGMA be a testbed to prototype a data sharing proof of concept using RDA early outputs?

Discussion between Satoshi Sekiguchi and Beth Plale
