  - Working Group Structure of PRAGMA – *ad hoc*
    - *Examine current structure, make recommendations for changes*
  - → These will take shape over the next few months
- Intent to name a Deputy Chair by Aug 1
- Discussion of PRAGMA in terms of value, new activities structure

# Focused on White Paper to be Delivered to NSF

- It's time for the U.S. to write a renewal proposal for our participation in PRAGMA
- Examine the value/impact of PRAGMA and what would be new...
  - Always done in context of what is best for the international collaboration
- Wide-ranging discussion about PRAGMA, our biggest strength, our most notable deficiency, construction of collaboration, how to engage other science communities, how to facilitate applications from testbed to (external) production resources, how PRAGMA relates to CENTRA, how to engage/train the workforce (undergrads, grads, post-docs, early-career), how a US proposal can be used to help others find funding, and more.
