

# The 4<sup>st</sup> PRAGMA Students Workshop in PRAGMA26

- **Student lightening talks**

- Best Overall Talk: Yuan Luo(IU); Best Tech Talk: Quan Zhou (IU);
- Best new member Talk: Chawanat Nakasan(Nara Institute of Science and Technology);
- Best idea talk: Hiroki Ohtsuji (University of Tsukuba);

- **Students Engaged by Panel of Discussion**

- Cayelan Carey's talk about GLEON GSA
- Best of lightening talks(5 talks)
- Panel discussion about students' research

- **What's more:**

- *Students Steering committee application*
- *Following-ups: Students Workshop Survey(Google Group); Distributed seminar—Volunteer?*

Yuan Luo	A Personal Cloud Controller
	Towards 100% Solar-powered Exa-scale Computing
Hiroki Ohtsuji	
Chawanat Nakasan	Wide-Area Distributed Storage Acceleration using MPTCP
	Challenges of deploying Wide-Area-Network Distributed Storage System under network and reliability constraints – A case study
Mohd Bazli Ab Karim	
Pongsakorn U-chupala	Bandwidth and Latency Aware Routing using OpenFlow
	Multi-layer Provenance Framework for Job Distributed System
Quan Zhou	
Zhenguo Cui	A Cloud Database Service Approach to the Management of Sensor Data
Heru Suhartanto	An Integrated Computing Platform Prototype Supporting In Silico Drug Discovery Activities
